**SOLUTIONS FOR  
A MOVING PLANET.**

---

Where excellence  
and innovation  
converge.

## SOLUTIONS FOR A MOVING PLANET

**L**ike the world around us, we're always evolving. That's why we're committed to constantly refining our services to meet the changing needs of our clients, ensuring we stay ahead and deliver exactly what they need, when they need it.

Innovation is what drives us – cohesion and responsibility are at our core. We place a strong emphasis on teamwork and foster a culture of appreciation and cooperation within our company. Together we can accomplish great things, and through our joint ventures, grow hand in hand with our clients, whose satisfaction it is we value above all else. That is why we guarantee you a first-class service and innovative logistics solutions of the highest caliber tailored to your specific needs.

Best wishes,

**Wolfgang Klepatsch**  
Founder and Managing Partner  
**ILG Innovative Logistics Group GmbH**

## WHO WE ARE

**T**he ILG logistics group was founded in Linz in April 2012 as a joint venture between our managing directors Wolfgang Klepatsch and Peter Neuhuber, and Fr. Meyer's Sohn (GmbH & Co.) KG – FMS for short, which was itself founded in 1897 in Hamburg. FMS is now one of the largest independent ocean freight forwarders in the world.

Our founders, Wolfgang Klepatsch & Peter Neuhuber, have been at the coalface of Austrian logistics for over 50 years now, and between them have accumulated an inestimable wealth of industry expertise. All of this means that together we are able to draw upon over 100 years of experience and practical know-how.

As an Austrian company with a global perspective, we have an in-depth understanding of the challenges facing the Austrian, European, and international shipping industries. This positions us as the perfect partner to meet your logistics needs worldwide.

Trusted, reliable & innovative.

**Global coverage,**

As a proud member of the international FMS Group, we leverage a global network of partners and maintain a strong presence across the world. With our headquarters in Linz, Austria, and additional branches and representatives in key markets like the USA and China, we are uniquely positioned to offer seamless, worldwide logistics solutions.

**combined with local  
expertise & service.**

# ILG – Your logistics service provider

For continental and world-wide overseas shipping

## PORTFOLIO

We are your trusted partner for innovative, customized global logistics solutions, specializing in general cargo, project cargo, high & heavy cargo, intermodal and HGV continental transport, steel logistics, and specialized container equipment. Our dedicated team of experts is always ready to provide you with tailored support and ensures seamless execution of your logistics needs.

# General cargo

Inbound | Outbound |  
Cross trade | Warehousing

Container shipping (FCL/Full Container Loads) is at the core of our operations. As your trusted import-export partner, we provide expert knowledge and global reach. Whether handling bulk goods, high-security shipments, time-sensitive deliveries, or wholesale logistics, we guarantee your cargo reaches its destination smoothly and efficiently. Your satisfaction is our top priority, and we take pride in offering tailored solutions that align perfectly with your unique needs.

## CONNECTIONS

As a partner in the NVOCC\* network of FMS Seaways, we have excellent connections with globally operating container shipping lines across all main trades and niche markets.

## KNOW-HOW

Our focus on containerizable consumer, industrial, and bulk goods gives us the competitive edge that our customers benefit from.

## KEY ACCOUNT MANAGEMENT

Our dedicated key account managers have extensive industry knowledge. We take the time to thoroughly focus on your needs.

## MEMBER OF WORLD-WIDE FMS GROUP

As a member of the FMS Group, we benefit from a comprehensive global partner network that offers you a significant strategic advantage in the marketplace.

# Heavy lift

## Breakbulk, heavy lift, and project cargo

Our trusted team is ready to design tailored solutions for your most complex transportation and special freight challenges. We're confident that we have the perfect logistics strategy to tackle even your toughest shipping needs. Rely on our experts to plan every detail of your shipment in close collaboration with you, from alternative routes and permits to navigating customs regulations. No matter the challenge, we guarantee your goods will reach their destination efficiently and smoothly.

To find out more about our heavy goods projects, please scan the QR-code.

### TRANSPORT DESIGN AND PLANNING

From the optimal arrangement of your products to the transportation technology used to securely, quickly, and economically reach your destination, we will design the best transportation solution for you and your cargo.

### SHIP SELECTION

Depending on the destination and specifications of the product being transported, our experts will provide you with the most efficient shipping solution based on our extensive experience in break bulk, RoRo, barge, and container shipping.

### ROUTE SURVEY

Route surveying is a crucial part of the overall process of transporting your goods. Whether it's a quick review of the route or planning a large-scale future project, our experts will ensure you have all the information needed to plan effectively.

### PACKAGING WITH LASHING POINTS

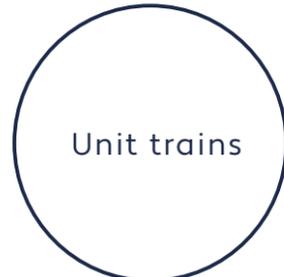

The individual packaging solution for your transport items, regardless of weight, size, or mode of transport. Our experts not only handle the proper packaging of your products but also ensure adequate load securing so that your goods reach their destination safely.

# Intermodal transport

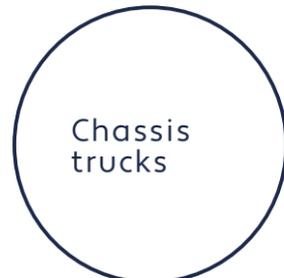

## Container trains/ maritime containers

The ILG Innovative Logistics Group is your global logistics partner, specializing in intermodal containerized seaport transportation, moving over 100,000 TEUs annually. Our advanced intermodal solutions allow us to organize your shipments with maximum efficiency while minimizing environmental impact. By integrating multiple transportation methods and cutting-edge technologies, we ensure your containers seamlessly transition from land to sea, delivering them to destinations worldwide with precision and sustainability.

Unit trains

We deploy combinations of one-way or shuttle Block Trains to transport goods to, from or between land and seaport terminals, and vice versa.

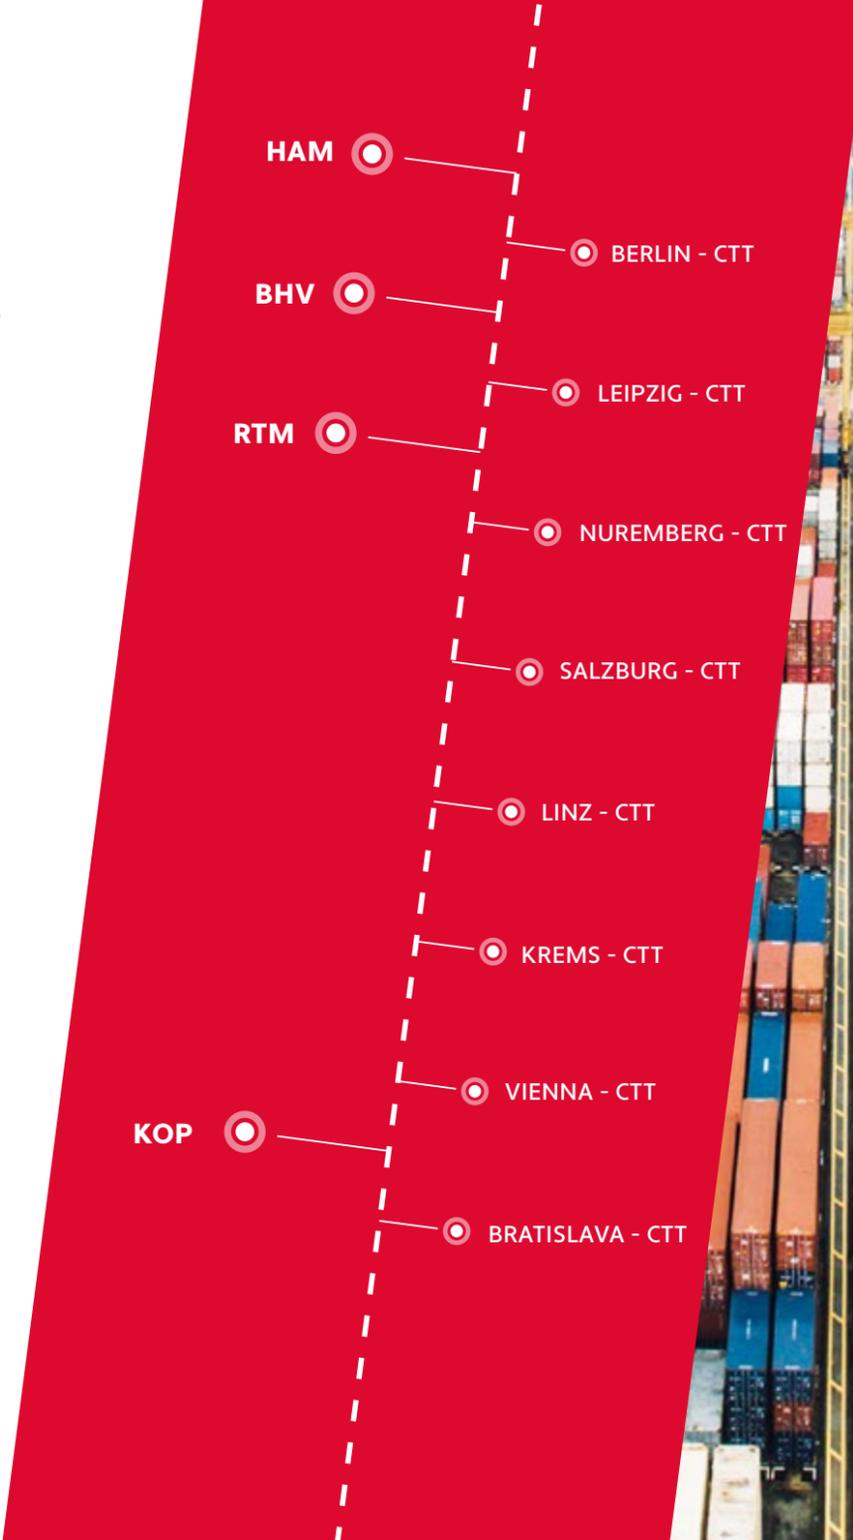

Chassis trucks

Climate neutral to "the last mile". Transport your cargo with our high quality "just in time" chassis trucks.

**Efficient & climate friendly - the ILG Innovative Logistics Group's intermodal, maritime concepts."**

SOLUTIONS FOR A MOVING PLANET.

# Metal logistics

## Logistics solutions for the metal industry

As your experts in the transportation of steel, we offer tailor made solutions for the secure and efficient transportation of your steel products. Our many years of experience, extensive know-how and specialist equipment enable us to transport steel in one way or another while maintaining only the highest safety standards as well as our reputation for reliability. With our one-of-a-kind packaging and loading concepts, the tri-modal ILG infrastructure and our many years of expertise, we guarantee that your business is in good hands. You can trust us to transport your steel, pipes, coils etc. while enjoying our commitments to quality, safety and customer satisfaction.

### STEEL COILS

Our unique loading concepts have been designed and patented specifically to meet the challenges encountered by the automotive industry.

As your experienced partner in metal & steel logistics, we organize sea transports for you within our global door-to-door network.

Scan the code to find out more

### STEEL SHEETS

Our service includes the secure loading and transportation of steel sheets specifically designed for use in machine engineering.

### CAST AND FORGE PRODUCTS

We ensure that your products are transported safely and efficiently to support the smooth construction and operation of petrochemical facilities.

### TRACKS AND SWITCHES

Our company specializes in shipping the tracks and switches used in railway infrastructure all over the world.

# Truckload transportation

The perfect transportation solution for your Industry

Are you in the market for a partner who can cover all your transportation needs? Then we are at your service! The ILG Innovative Logistics Group can provide you with solutions to regular haulage in canvas trailers as well as to the challenges involved in transporting special and heavy goods. We move your products in an environmentally responsible manner using the most modern equipment which is now also 100% electric.

**100%**  
electric

## FULL AND PARTIAL LOADS

We offer flexible solutions to your HGV transportation needs, both for full loads (FTL - Full Truckload) and partial loads (LTL - Less than Truckload).

## SCHEDULED & JUST-IN-TIME (JIT) TRANSPORTS

You can rely on our expertise and modern fleet to get your goods to their destination in a timely manner.

## HEAVY & SPECIAL CARGO TRANSPORTATION

You can count on our customized solutions for transporting heavy and special goods that are sure to satisfy your particular needs.

## CONTAINER TRUCKING

With our Container Trucking Service we bring your freight efficiently and securely to its destination.

# ILG container equipment

For your particular needs

The right container for every shipment. Our experienced logistics experts know how to get your freight securely and efficiently to its destination. Our own fleet of containers guarantees maximum flexibility and constant availability for your shipment. **All of our containers are registered with the competent authority, the „Bureau International des Containers et du Transport Intermodal“.**

## SUSTAINABILITY IN TRANSIT – SAFEGUARDING THE FUTURE

---

**T**oday, sustainability plays a central role in the transportation and logistics industries. That's why we invest in innovative technologies and processes aimed at increasing efficiency while reducing our ecological footprint. Our sustainability initiatives are a key part of our business strategy. Whether by adopting more environmentally friendly modes of transport, minimizing waste, or improving energy efficiency, we continually look for ways to make our services greener. At ILG Innovative Logistics Group, both our truck fleet and all employee and company vehicles are 100% electric.

“

Our aim is to operate with integrity, fostering positive changes in social responsibility and environmental sustainability.”
